

CROSS COUNTRY CANADA SUPPLIES & RENTALS METER BAGS

CONSTRUCTION • PIPELINE • MINING • AGRICULTURE

CCIS-MB393948

39"W x 39"W x 48"H Fully lined

Flexible PP fully lined Meter Bag, also known as Bulk Bags, Tote Bags or Super Sacs, are industrial containers made of woven, flexible fabrics designed to store and transport dry, flowable products. Strong, durable, cost-effective and environmentally-friendly, these bags reduce labor and handling, optimize space for warehousing/transport, may be reusable and are recyclable.

With flexibility in design and the growing requirements of an evolving industry, these multi-use bulk bags can be used in many environmentally sensitive areas for use in flood mitigation, water course diversions and temporary erosion methods.

- Made of white PP fabric 190gsm uncoated
- Duffle style top
- Sewn in liner
- Fully lined
- Disposal of waste or hazardous materials
- Suitable to filled with sand/gravel for flood prevention and water diversion
- Rated to 1,500KG (3,306lbs)
