

CROSS COUNTRY CANADA SUPPLIES & RENTALS

SYSTEM 1 TIE PLUGGING SOLUTION

THE ULTIMATE RAILROAD TIE REPAIR SOLUTION IN ANY CONDITION

Proudly partnered with Railroad Solutions, Cross Country Canada Supplies & Rentals offers you **System 1** — the chemical tie plugging product that works in all climates and conditions.

System 1 is a high-performance, two-component polyurethane solution engineered for the repair and maintenance of wood railroad ties. Developed after countless hours of research, System 1 ensures reliable and long-lasting repairs even in the toughest environments, from extreme heat to freezing cold.

KEY BENEFITS

- **Moisture-Insensitive:** Works in all weather conditions without being affected by moisture.
- **No Shrinkage:** Cures to a dense, wood-like consistency, with zero shrinkage after curing.
- **Flexible Application:** Ideal for both large production gangs with machine operators and smaller repair jobs with handguns.
- **Prevents Spike Kill:** Effectively fills tie cavities and spike holes, prolonging the life of your ties and preventing damage.

QUICK FACTS

Composition: Two-component polyurethane, 1:1 mix ratio

Sizes Available:

- Hand Cartridges
- 5 Gallon (U.S.) Containers
- 275 Gallon Tote Units

Application: Fills tie holes, anchors spikes, and provides long-lasting repairs without shrinking.
