

CROSS COUNTRY CANADA SUPPLIES & RENTALS

DENSO JOINT SEALING PRODUCTS

ROADWORK • CIVIL CONSTRUCTION • INFRASTRUCTURE • UTILITIES

MOT-APPROVED ASPHALT JOINT SEALING FOR BC, ALBERTA, AND SASKATCHEWAN

Cross Country Canada supplies Denso joint sealing products approved by the Ministries of Transportation in BC, Alberta, and Saskatchewan. Backed by long-term performance, DensoBand and Denso Reinstatement Tape are trusted across Western Canada for sealing and protecting. We provide both supply and application support for civil projects that demand durability and compliance.

- Road repairs and asphalt overlays
- Sidewalk and curb tie-ins
- Manholes, catch basins, and utility cuts
- Parking lots (including all Costco sites)
- Bridge decks, rail crossings, and airport runways

DENSOBAND

Hot-Applied Joint Sealing Compound

Creates a strong, watertight bond between new and existing surfaces like asphalt, concrete, steel, and wood.

- Absorbs movement from heavy traffic and temperature shifts
- Prevents water ingress, cracking, and erosion
- Machine or hand applied

REINSTATEMENT TAPE

Cold-Applied Joint Sealing Tape

Fast, clean sealing for reinstatement cuts, patches, and utility openings.

- Cold-applied — no heating required
- Adheres to asphalt, concrete, and steel
- Flexible and waterproof
- Great for smaller repair jobs and curb interfaces

SUPPORTING PRODUCTS

DENSO PRIMER D

Brush-Applied Primer

Used to prepare surfaces for DensoBand or Reinstatement Tape.

- Enhances adhesion to concrete, steel, or asphalt.

BUTYL SPARY ADHESIVE

Aerosol-Applied Primer

Used to prepare surfaces for DensoBand or Reinstatement Tape.

- Quick and easy surface prep for smaller jobs or tight access areas.
- Used in place of Primer D
