

**Offering a rare combination of complete engineering, manufacturing, and direct distribution of our product line is what distinguishes IECS as an industry leader in the design-build civil construction market.**

International Erosion Control Systems Inc. has been providing solutions for storm water management, erosion control issues and pre-cast structures since 1984. Our Cable Concrete® erosion mattress system is unparalleled in performance and backed by extensive engineering and testing.

IECS takes on unique erosion control and pre-cast challenges in all areas of the world with commitment to quality products and service at the forefront. We are always looking to improve our product line, and build upon our success. With more than 3,600 installations worldwide and over 16.5 million square feet of Cable Concrete® on the ground IECS is an industry leader in the design-build industry.

## ARTICULATED CONCRETE BLOCK SYSTEM

Engineered as an alternative to loose rock rip rap, Cable Concrete® is an articulated concrete block revetment system, developed by International Erosion Control Systems, to control various types of erosion due to water, wind, or vehicular traffic.

## WHAT CAN YOU EXPECT FROM IECS?

**Innovative thinking and manufacturing of customized products specific to every site's unique challenges. IECS is a multi-tool in an engineer's toolbox during the design phase of any given project.**

- Over 30 years of experience
- Family owned and operated
- Responsive customer service with the flexibility to meet your project needs
- Customized manufacturing abilities to fit the requirements of any project
- Quick turnaround time and large inventory of all product lines
- Design/build capabilities
- Turnkey solutions for ACB design; from detailed design review; on-site assistance, and final installation site review – FREE OF CHARGE

## AVAILABLE PRODUCTS

International Erosion Control Systems Inc. has a complete line of solutions for storm water management, erosion control issues and pre-cast structures.

CABLE CONCRETE

SPECIALTY PRECAST

PRECAST HEADWALLS

LG RETAINING SYSTEMS

## FEATURES + BENEFITS

### Up to 40% open area

Provides a complete vegetation regrowth habitat, and enhances aesthetics while providing permeability and water treatment measures.

### Cables cast in both directions into wet cast air entrained concrete

Provides increased block-to-block connection strength and allows for easy on-site modifications.

### Completely stainless steel cable/clamping system

Built to withstand harsh environments and provide superior corrosion resistance to salt and uv degradation.

### Pre-attached site specific non-woven geotextile

Makes for quick and easy on-site installation.

### Cable loops on all 4 sides

Delivers quick, secure and safe mat-to-mat connection.
