2024 PRODUCT CATALOGUE

WHO ARE WE

Cross Country Canada is a full industrial supply and rental company deeply rooted and well established in the industrial infrastructure sector, specializing in pipeline, railway, power grid, mining and civil construction. We have a proven track record in the successful navigation and evolution of the ever-changing needs and requirements of the market and diverse customer base.

HUMBLE BEGINNINGS

Our company story begins in a garage in 2014 as Sideline Specialty Equipment. Noticed quickly by the competition, Sideline was purchase by U.S. investors, only to be brought back home to Canadian ownership by a group of dedicated employees and re-branded as Cross Country Canada Supplies & Rentals in 2021.

WHAT SETS US APART

We are proud Canadians who believe integrity, hard work and building strong foundations are the key to long term success. Our diverse team of well-connected industry experts are highly experienced in every facet of construction and industrial infrastructure and have a comprehensive understanding of the geographical landscape of the country we operate in . This experience allows us to provide responsive service and customized solutions to ensure our customers get the product they need, when they need it.

At Cross Country Canada we take great pride in our Get 'Er Done attitude - your success is our success!

CORE VALUES

PRIDE

In everything we do.

TEAM

Spirit and Culture, we work together and have fun doing it.

GET 'ER DONE

Attitude in every situation.

HUMBLE

Always willing to learn and grow.

SUPPLIES

DENSO COATINGS

DENSO COATINGS

Denso, a leader in corrosion prevention and sealing tech, provides innovative solutions for various industries. Partnering with Denso, Cross Country Canada offers top-quality corrosion prevention tech for your specific needs. Whether in oil and gas, construction, transportation, or other industries, we deliver advanced solutions.

Cross Country Canada is also a certified **Denso Manufacturer Application Trainer**, providing comprehensive programs for effective application of Denso products.

PIPELINE COATINGS

PETROLATUM TAPE SYSTEMS

SEALING & MOLDING PRODUCTS

ROAD MAINTENANCE

CARTRIDGES

INDUSTRIAL HOSES

Keeping your operations flowing smoothly with our industrial hose supply solutions.

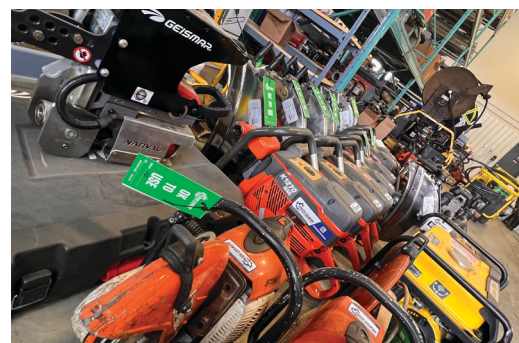

- Heater Ducts
- Fire Hose
- Mining & Drilling Hose
- Steam Hose
- Layflat
- Vacuum Truck Hose
- Tank Truck Hose
- Flush Hose
- Hose Accessories

RAIL TOOLS

Cross Country Canada is your go-to for rail construction and repair needs. With a wide range of specialized tools, your project will be completed efficiently and precisely, regardless of size or complexity.

- Rail Pullers
- Turn Out & Profile Grinders
- Rail Saws
- Tie Hand Drills
- Chain Saws
- Impact Wrenches
- Cut Off Machines
- Backpack Blowers
- Rail Drills
- Rail Heater
- Lubricants
- Tongs
- Jacks
- Derail & Rerailers
- Shovels, Punches, Scoops, Adzes, Turners and Bars
- Drilling Accessories
- Abrasives
- Rail Gauges
- Measuring Wheels
- Track Inspection Tape

RAIL TOOL REPAIR

Our in-house technicians can repair a variety of rail tools, from handheld to heavy-duty, specializing in brands like Stanley, Trackstar, Geismar, Stihl, and more.

FARM & RANCH SUPPLIES

A comprehensive inventory of livestock supplies from 2W Livestock Systems. Whether you're a seasoned rancher, a rodeo enthusiast, or an equine lover, we've got you covered with a wide range of top-quality products and equipment designed to enhance your livestock operations.

LIGHT/MEDIUM/HD PANELS & GATES

SPECIALTY HANDLING EQUIPMENT

SUPPLIES

GEOSYNTHETICS

GEOTEXTILES

- Woven & Non-Woven Geotextiles
- Triples
- High-Strength Geotextiles
- Geonet/Geocomposites

GEOGRID

- Biaxial Geogrid
- Triaxial Geogrid
- Composite Geogrid
- Uniaxial Geogrid

GEOCELL

A honeycomb structure of polymer strips and geotextile that form a large mat, capable of containing soil and facilitating load transfer.

EROSION & SEDIMENT CONTROL

- Erosion Control Blankets
- Turf Reinforcement Mats
- Silt Fence
- Filter Unit Rock Bags
- Turbidity Curtains
- Wattles
- Siltation BMP's
- Spray Applies Products
- Pollution Prevention Fence
- Hard Armour Solutions

WATER MANAGEMENT

- Dewatering Bags
- Cofferdams
- Meter Bags
- Water Storage
- Water Conveyance BGM
- Geosynthetic Clay Liner
- Foundational/Wall Drains
- Strip Drains
- Wick Drains
- Weeping Tile

PIPELINE PROTECTION

GRID GUARD HD PLUS

Grid-Guard HD Plus pipeline protection grid is an extruded polyethylene 1mm (3/8") three-dimensional mesh/grid with the addition of geotextile fabric backing. Installed on both steel and plastic pipelines.

- Offers greater impact protection during backfill operations
- Offers additional protection after burial: fabric acts as a slip sheet around the pipe, helping to minimize soil stress on tapes and coatings
- Does not interfere with cathodic protection
- Consistent thickness throughout
- Available in custom pads and rolls
- Lightweight and flexible
- Does not bunch up in the cradles

CONCRETE PIPELINE COVER

Efficient and quick-to-install, the Incomat concrete mattress system protects pipelines against buoyancy, uplift and external impacts. The Incomat system will drastically improve production, safety and total cost versus traditional coating methods.

INDUSTRIAL SUPPLIES

ABRASIVES & CUTTING TOOLS

- Grinding Tools
- Abrasive Blasting Tools
- Brushes & Wheel Kits
- Cut-off & Grinding Wheels
- Deburring Tools
- Flap Wheels
- Mounted Points & Kits
- Sanding & Polishing Tools
- Surface Conditioning Wheels

CONTRACTOR SUPPLIES

- Concrete & Grouting Supplies
- Carpet Tools
- Scrapers & Trowels
- Ladders
- Electrical Supplies
- Stains & Finishes
- Wood Glue
- Workwear

CONTAINMENT & SPILL CONTROL

- Spill Kits & Sorbents
- Spill Pallets, Pads & Berms
- Poly Ramps
- Drum Containment
- Bins & Drums
- Utility Trays
- Pop-Up Pools
- Drains & Eye Wash

CLEANING & SUPPLIES

- Brooms, Brushes & Dust Pans
- Cleaning Chemicals
- Cleaning Equipment & Vacuum Cleaners
- Dust Mops, Dusters & Cleaning Pads
- Personal Care Products
- Rags & Wipes
- Buckets, Containers & Carts
- Sewer Cleaning
- Trash Bags & Liners
- Wet Mops & Squeegees

HAND TOOLS

- Clamps & Vises
- Crimping & Deburring
- Drywall & Plastering
- Electrical Tools
- Hammers & Prying Tools
- Hand Saws & Saw Horses
- Inspection & Retrieval Tools
- Marking & Measuring Tools
- Masonry & Tile Tools
- Pliers, Wrenches, & Pullers
- Plumbing Equipment
- Punches, Chisels, & Drills
- Screwdrivers, & Bits
- Specialty Safety Tools
- Stapler &, Tackers
- Tool Storage & Transfer Tanks

LIGHTING SUPPLIES

- Flashlights
- Headlamps
- Hand & Portable Lamps
- Job Site Lighting
- Lamps & Bulbs
- Outdoor Area Fixtures
- Task Lights

MATERIAL HANDLING

- Cabinets
- Casters & Wheels
- Dock Equipment
- Drums
- Material Handling Hose
- Mobility Utility & Tool Carts
- Ratchet Straps & Tie Downs
- Shelving & Storage Wraps
- Shop Furniture
- Storage Bins & Containers
- Strapping & Equipment
- Work Benches & Accessories

POWER TOOLS

- Cordless Tools
- Demolition Tools & Equipment
- Drilling Accessories
- Fastening Tools
- Finishing Tools
- Heat Guns
- Masonry Tools
- Power Drills
- Power Saws & Accessories
- Power Shears
- Routers
- Tool Storage

RIGGING & LIFTING TOOLS

- Below-The-Hook Accessories
- Chain & Chain Accessories
- Hoists & Trolleys
- Lifting Hardware
- Lifting Slings
- Ropes
- Winches
- Wire Rope & Fittings

SAFETY SUPPLIES

- First Aid Supplies
- Fire Extinguishers
- Spill Kits
- Fall Protection
- Hand, Eye & Ear Protection
- Hard Hats
- Respiratory Protection
- Skin Care & Cleaning Supplies
- Protective Clothing & Logoing
- Traffic Control Equipment
- Rebar Protection
- Emergency Survival Kits
- Ice Melt

SIGNAGE

- Road Construction Signs
- Pipeline Signage
- Regulatory Traffic Signs
- Information & Guide Signs
- Specialty Traffic Signage
- Radar Signs
- Solar Traffic Devices
- Pilot Truck Signs
- Traffic Control Systems
- Custom Signs (See pg 28)

WELDING SUPPLIES

- Soldering
- Stick Welding & Accessories
- Welding Chemicals
- Welding Helmets
- Welding Protection
- Nozzles
- Welding Rods
- Scrapers

CROSS COUNTRY CANADA GLOBALLY SOURCES OUR SUPPLIES TO ENSURE A VOLUME OF PRODUCT THAT OUR CUSTOMERS NEED AT A PRICE THAT OUTDOES THE COMPETITION.

EQUIPMENT

YELLOW IRON

RUBBER TRACK CARRIERS

Morooka and SCAIP Rubber Track Carriers – unmatched traction, high load capacity, and 360-degree cab rotation for versatile and demanding jobs.

- Morooka MST1500VD
- Morooka MST2200VD
- Morooka MST2200VDR
- Morooka MST3000VD
- SCAIP SRT-155 w/ Crane

EXCAVATORS & ATTACHMENTS

Our Caterpillar Excavators excel in digging, trenching, and earth-moving tasks, delivering peak efficiency and unwavering reliability.

- Padding Buckets
- Strikeforce Hammers
- Digging Spoons
- Lifting Jibs
- Digging & Clean-out Buckets

SKID STEERS

Ideal for construction, landscaping, snow removal, and earth-moving – ensuring peak productivity and performance.

WHEEL LOADERS

Whether you're tackling construction projects, material handling, or loading tasks, our Cat Wheel Loaders are equipped to deliver optimal results.

DOZERS

Our CAT Dozers are engineered for tough jobs, from construction to land clearing and grading tasks, ready to conquer any terrain effortlessly.

POWER EQUIPMENT

LIGHT TOWERS

Our mobile, easy to set-up light tower systems have large fuel tanks which make them ideal for continuous operation. Available in electric, diesel and hybrid varieties.

EEL LIGHT TOWER

Delivers outstanding performance with a 96% reduction in fuel consumption. Its innovative hybrid system offers up to 92% fuel savings, minimizing maintenance and labor costs.

POWER PACK N' PUMP

Our Triple P - Power, Pack and Pump - package is a power supply, lighting plant and pumping solution in one. From civil construction to mining and pipeline, this triple threat offers the best bang for the buck!

GENERATORS

20kW to 1510kW Portable and mounted options. Cables up to 100 feet long and various power capacities.

COMPACT EQUIPMENT

TRACK LOADERS

Kubota compact track loaders effortlessly handle digging, loading, hauling, and pushing tasks.

SCISSOR LIFTS

Providing portable and mounted options for enduring harsh weather and long hours.

TRACK CARRIER

Get superior traction, load capacity and dump force with a Kubota track carriers.

FUEL CUBES

1900L, 2000L, 3000L Provide dependable storage for remote areas. Stackable and lockable options for secure storage.

MINI EXCAVATORS

Compact, powerful, and easy to maneuver, perfect for construction and landscaping projects.

UTILITY TRACTORS

Excellent for tasks like raking, mowing, material handling, hobby farming and more.

MINI SKID STEERS

The ideal mini stand-on skid steer for durable, high-performance tasks on jobsites, large or small.

PIPELINE EQUIPMENT

PIPE BENDING EQUIPMENT

Cross Country Canada offers a variety of pipe bending machines and mandrel rentals with the ability to bend pipe from 6" to 48".

PIPE BENDING MACHINES

Cross Country Canada offers industry leading brands - DMI & SCAIP - pipe bending machines with the ability to bend pipe up to 48"

- DMI Open Face 6-20
- DMI 6-20
- DMI 16-30
- DMI 22-36
- DMI 36-48
- SCAIP SPB 36-48
- SCAIP SPB 32-42

MANDRELS

Cross Country Canada offers a variety of mandrel sizes and configurations from both DMI & SCAIP to accommodate all pipe dimensions.

- DMI Pneumatic Wedge Mandrels 8"-48"
- DMI Hydraulic Wedge Mandrels 30"-48"
- SCAIP Pneumatic Wedge Mandrels 40"-48"
- SCAIP Hydraulic Wedge Mandrels 30"-48"

PIPE COATING

TESI IHG INDUCTION GENERATORS

Self contained, skid-mounted units with diesel powered, air-cooled engines.

- Auxiliary power sourced
- Electronic specifications display
- Remote controlled

Available Models: IHG 120, IHG 150

TESI HEATING COILS

Tesi's Induction Heating Coils are the safest and most efficient way to preheat pipe for coating applications. Designed to heat the sandblasted and exposed welded pipe joint in order to prepare the pipe cutback surface for coating. Available Sizes: 10", 12", 16", 20", 24", 30", 36", 42", 48", 54"

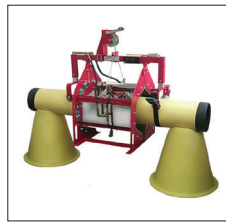

JEEPERS

Output voltage is subject to influence by weather, moisture, improper grounding and soil conditions. Minimize the effects of corrosion by detecting the presence of "holidays" or defects in the non-conductive coatings.

COATING TENT

Our metal framed coating tents with canvas covers are lightweight and easily transported from one joint to the next by a back end rig.

SURESEAL HEATERS

A unique infrared heating system consisting of multiple heaters mounted in a clamshell frame configuration, which provides a safe and fast heat application to the construction and maintenance of pipe.

COATING SHACK

Our lightweight, metal coating shacks provide the user with lighting and protection from the elements.

DENSO PIPELINE COATINGS

Epoxy coatings for superior corrosion protection.

See page #6

SANDBLAST DECKS

- 2 operator ladders (rear and side access)
- Built-in forklift pockets for easy deck installation
- Elevated air compressor for service access and contamination prevention
- Swing-open gate rail for easy pallet loading
- 10.0 Cu. Ft. Blast pot with dual hoses
- Adjustable blast hose jib poles for direct blasting
- Drop-down rear frame for pressure pot loading
- 2 toolboxes, 2 CO2 monitors, electric generator
- 2 blast hoods with air conditioners

Single Pot 375 comp. Dual Pot 750 comp.

PIPE HANDLING

A full range of high-performance pipe handling products and equipment customizable for our customers.

PIPELAYERS

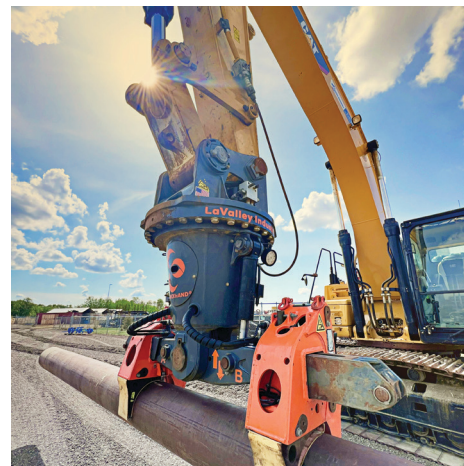

Our fleet of pipelayers are the standard of the pipelining industry and are designed to withstand the most demanding pipeline conditions.

- CAT 589
- CAT 583T
- CAT PL87
- CAT 572R
- CAT 587T
- CAT PL61
- CAT PL83
- CAT 561N

VACUUM LIFTERS

Cross Country Canada's selection of vacuum lifters from both DMI and Vacuworx can handle pipe sizes from 4" and up, with a capacity for 3 to 20 tons.

DECKHANDS

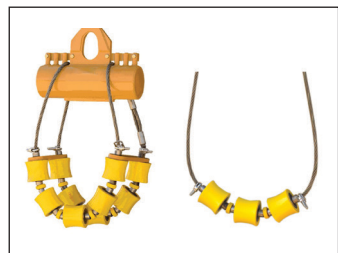

360° continuous rotation, in-cab display, and adjustment, and load holding valves for secure handling. **A variety of interchangeable pipe, utility and mat arms available.**

HDD ROLLERS

4"-48" Heavy Duty
2"-24" Light Duty

Horizontal Directional Drilling Rollers support pipe as it travels smoothly towards its destination, eliminating the need for manual transport.

ROLI CRADLES & SLINGS

Slings for pipe sizes 2"-24" with evenly spaced urethane rollers.

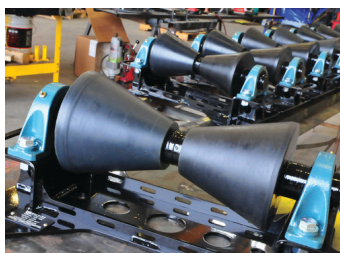

Cradles for pipe sizes 6"- 60" with load capacity designed for safe handling of heavy walled pipes.

PULL HEADS

6"-48"

Our Cross Country Canada certified engineered pullheads attach to the end of pipe to pull through boreholes. Commonly used in small-diameter directional drilling for easy installation.

HDD CONICAL ROLLERS

HDD Conical Rollers help to minimize drag forces of pipe-pulling through horizontally drilled or bored holes.

AIR LIFT BAGS

High quality air lift bags by Paratech, Matjack, and Holmatro, available in various sizes, with capacities up to 68 tons, designed for rugged, heavy-duty tasks.

LOWERING-IN BELTS

Pipe Diameter: 12"-60"

Heavy-duty nylon webbing for durability and strength with alloy steel end irons for greater strength with less weight.

POWERED ROLLERS

Comes with geared height adjustability which provides smooth transitions even when the pipe support is under a load.

PNEUMATIC TIRE CRADLES

12"-24"

Cross Country Canada can provide pneumatic tire cradles to assist in pipe handling and lowering in operations to not only protect the pipe but assure a smooth guide.

PIPE WELDING & CUTTING

INTERNAL LINEUP CLAMPS

DMI - Sizes 6", 10", 12"

Self Centering Internal Pneumatic Lineup Clamps

A self adjusting mechanism is provided in the rear of the clamp to the middle of the pipe and to reduce offset between the two pipes being joined together.

SCAIP - Sizes from 8" and 60"

SLC Series: For pipe welding with coated electrode process.

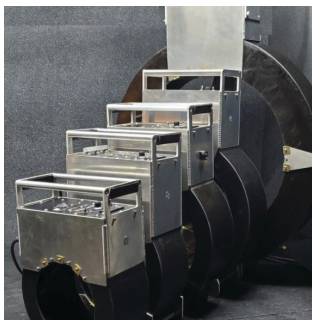

SLCA Series: For pipe welding with automatic MIG/MAG process, with backing of the welding both made with copper pads.

TACK RIGS

- Cat D6N Tack RIG
- Morooka Tack Rig

Offers the exceptional performance, productivity and versatility required to facilitate the building of pipeline infrastructures.

DEMAGNETIZATION COILS

Demagnetization in less than 2 minutes per end and lasts several days, to an acceptable level for Welding of +/-2 Gauss.

- 8 5/8", 10 3/4", 14", 16", 18", 25", 32", 38", 44" 50", 60"
- 14" 115V-6HZ
- 25" 230V-50HZ
- 38" 230V-60HZ

IDMAG SYSTEM

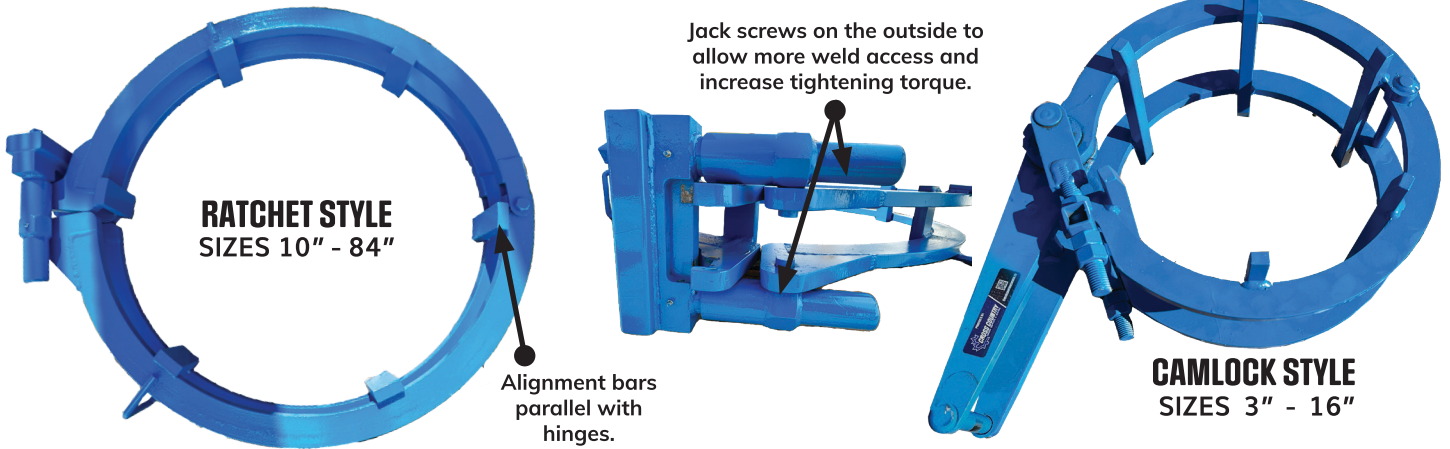

Runs on 120V-250V power, making it versatile for use in various locations.

- Portable & Lightweight
- Single Phase, 50/60hz
- Sealed Panel/Switches
- Expandable for more Power
- Use on Valves, Vessels & Plates

CROSS CLAMP - EXTERNAL LINE UP CLAMPS

Introducing the CCCSR External Line Up Clamps – an innovative solution enhancing pipeline welding quality and safety. Designed for maximum weld access without the need for clamp rolling, these clamps reduce the risk of cracked welds upon removal, setting them apart from

industry alternatives. CCCSR Line Up Clamps not only streamline welding but also boost efficiency, reducing setup time—especially valuable in high-volume welding scenarios. (Patent Pending: 63/484,138)

AUTO WELD SHACKS

- 10'x12'
- Adjustable doors from 12" to 48"
 - Folding Floor Panels
 - Engineered Lifting Hooks
 - Dry Weight 4300lbs
 - Power/Lighting set up to customer specifications

KC CLAMPS

- 10"-84"
- Screw type clamp with reversible ratchet
 - Machined pads to fully contact O.D. of pipe
 - High clamping, even pressure for maximum alignment

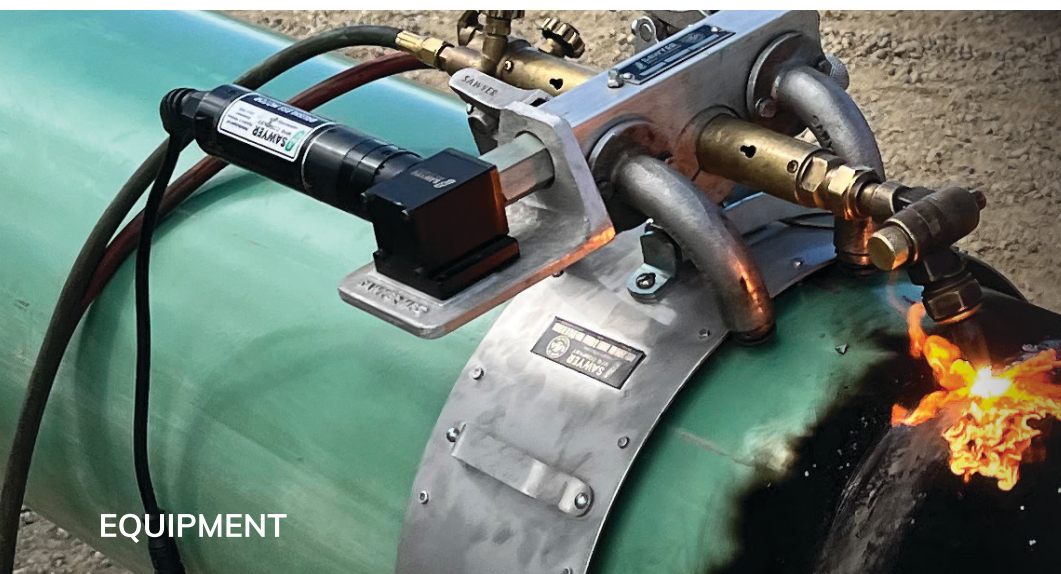

ULTRA RIM CLAMPS

- Available sizes 12-48"
- Plated jackcrews with pivoting pads for precise reforming pressure
 - Stainless steel pivot points
 - Heavy-duty latching mechanism

COLD CUTTERS

- 2-4", Rigid 6", 6-8", 10-14", 16-18", 20-22", 24-26", 28-34"
- Reed cold cutters to cut large diameter steel, most stainless steel, ductile and cast iron pipe in close quarters.

BEVELING EQUIPMENT

A full selection of pipe beveling equipment from both Mathey and Sawyer MFG.

- Beveling Machines
- Bands
- Crawlers
- Whips
- Motors & Remotes
- Victor Barrel Torches
- Angle Heads

PIPE TESTING

LAUNCHERS/RECEIVERS

Designed to work in conjunction with a hydrostatic testing system. Built to withstand the rigors of testing on construction sites and remote locations.

4", 6", 8", 12", 16", 20", 24", 36"

- 300 ANSI Fittings
- Full Port Ball Valves
- 740 PSI Operating Pressure
- Full QC Packages

TEST HEADS

Pressure testing with water on piping to check system integrity under high pressure conditions.

- Engineered to build up to 48" and down to 6" if needed
- Designed to max test pressure of 3000psi with 1500 ANSI valves. Meet both Canadian and US Codes
- Heads are equipped with full protective cages to ensure protection for the valves during use.

Cross Country Canada carries the only pigging heads in Canada with full port valves, which allow for continued mainline pressure during the loading and unloading of pigs.

AIR COMPRESSORS

Doosan's portable air compressors ensure maximum uptime and productivity.

- 1600 CFM at 150 PSI
- 750 CFM at 150 PSI
- 375 CFM at 150 PSI
- 185 CFM at 100 PSI

PIPELINE PIGS

STEEL MANDRELS 2"-48"
3D and greater bends

FOAM PIGS 2"-60"
Short radius, miter, tees, multi-diameter lines

URETHANE PIGS 2" to 36"
1.5D or greater bends

SPECIALTY PIGS 2" to 48"
3D or 1.5D bends

INSTRUMENTATION

We offer a comprehensive range of high-pressure testing equipment designed to meet the most demanding requirements. Whether for industrial testing, pipeline inspection, or any high-pressure application, our top-quality equipment ensures precision and reliability in recording, monitoring, and maintaining pressure levels.

- High Pressure Test Trees
- Recorders
- Digital Pressure Gauges
- Compressors
- Baker Pumps
- Pneumatic Pumps
- 2-Stage Pumps
- Mechanical Dead Weights

EQUIPMENT

OFFROAD EQUIPMENT

TUT UTILITY TRUCKS

The TUT Utility Truck is a robust American-made powerhouse, delivering an impressive 500hp for unparalleled performance and long-lasting durability. With its unique amphibious capabilities, advanced 4-wheel crab steering, and adaptable front and rear suspension, it's a versatile choice for a wide range of tasks, including search and rescue

or firefighting missions. Plus, its accessibility with readily available Chevy/GM parts and a wide array of customizable options make it the ideal solution for your specific needs.

- Recreation
- Remote Access
- Search & Rescue
- Construction/Mining
- Farm & Ranch
- Military/Defense
- Firefighting
- Exploration
- Expeditions
- Oil & Gas

VISIT SITE

KAWASAKI SIDE X SIDES

A selection of utility, sport and recreational side x side vehicles for rent.

- Kawasaki Teryx & Kawasaki Mule
- Both 2 and 4 Passenger Options
- Trailers Available

PUMPING EQUIPMENT

Cross Country Canada is your pump solutions partner. We can manufacture custom, built-to-suit pumps, to meet your needs.

HYDRAULIC SUBMERSIBLE PUMPS

Ability to place the pump end in the pumping source and eliminate suction lift limitations.

ELECTRIC SUBMERSIBLE PUMPS

Convenient, highly efficient and ideal for removing water from confined areas.

HIGH HEAD PUMPS

For the ultimate in vertical push, fluid velocity and pressure.

SOUND ATTENUATED PUMPS

Designed to minimize noise while not compromising on performance.

VAC ASSIST CENTRIFUGAL PUMPS

With automatic level controls to allow for unattended pumping.

FILTER TRAILERS

Trailer mounted filter pots filter contaminants from liquids, allowing for environmentally friendly disposal.

FISH SCREENS

Fishery approved screens to prevent harm to native fish and aquatic creatures, while decreasing the intake velocity to keep consistent suction.

DIFFUSERS

To reduce and control the velocity of water flow exiting the hose. This protects the surrounding landscape from any erosion or wash out.

PUMP MANUFACTURING

At Cross Country Canada, we specialize in crafting industrial fluid high head pumps tailored to meet your unique requirements. Our commitment to precision and performance ensures that each pump is a custom-built solution, delivering unparalleled efficiency in fluid management.

- Industry Leading Brands
- Versatile Pump Sizes
- Powerful Engine Options
- In-House Fabrication
- Telematic Compatibility

SPECIALTY EQUIPMENT

VITA LOAD NAVIGATOR

Autonomously hold any position and precisely place crane picks. The outdated method of using a rope to guide the load in place isn't efficient or safe for the modern-day crane operator. The Vita Load Navigator - an autonomous system that stabilizes

loads despite wind or crane movement. Instead of using tagline, you use a wireless remote control to rotate the load within one degree of where you want it.

- Load never deviates more than one degree and stays in position throughout entire lift.
- Remotely operate the Vita Load Navigator from a distance of up to 600'.
- Load will automatically stabilize in high winds up to 50km/h.
- Position Hold feature locks in preselected orientations, ideal for repetitive lifts.
- Makes crane operations up to 50% faster.
- 63% Reduction in Injuries from Spinning Loads.
- 75% Fatality Risk Reduction.

VLN Radio System meets EN ISO 13849-1:2015

Structural Lifting meets ASME B30.20, BTH-1, DESIGN CATEGORY B, CLASS 0

PORTABLE WASH PADS

Soil and water contamination are a huge factor in environmental harm during construction projects. With proper planning and the utilization of suitable equipment, many impurities and toxins can be contained and prevented from polluting the area.

Our portable wash pad systems allow construction and pipeline equipment to be cleaned directly onsite while containing up to 3500 gallons of water per system. Each system consists of 4 individual sections, 4 ramps and side curtains. One complete system measure 20' x 32', however, additional pads can be attached for larger, and longer arrangements,.

With 100% containment capacity, Cross Country Canada wash pad systems allow for waste-water disposal in an ecological manner.

FIRE SUPPRESSION TRAILERS

Utilized for fire-fighting, our fire suppression trailers are rugged, durable and reliable, providing added safety to remote worksites.

A popular choice for managing grass and bale fires, our Fire Suppression Trailers can also be used for transporting water, spraying roadways for dust control, landscaping applications and more.

- 2 x 500 gallon water tanks
- 5 kilowatt generator (Honda EB 5000X)
- 500' of fire hose (5 x 100' hose sections with couplers)
- Motorized hose reel
- Honda WH20XT 2" high pressure water pump that produces 80' of spray distance at full hose length
- 2 lockable tool boxes
- Plenty of basket space for shovels and other tools
- Rugged construction for off-road use

MOBILE WAREHOUSES

Welcome to Cross Country Canada’s cutting-edge mobile warehousing solutions, tailored to meet the unique demands of the Canadian construction industry. Our innovative approach is designed to bring convenience, efficiency, and productivity directly to your job sites. Whether you’re involved in construction, pipeline projects, or mining operations, we understand that time is of the essence. That’s why we’ve developed mobile warehouses that can be strategically placed on-site, offering a wide range of supplies, tools, and rentals at your fingertips.

CUSTOMIZATION AND FLEXIBILITY

Our mobile warehouse systems are fully customizable to suit your specific needs. Whether you need a single stocked seacan or a comprehensive multiple trailer system, our team is dedicated to tailoring the layout to optimize your workflow. We can even provide skilled Cross Country team members to manage daily operations, ensuring seamless inventory management, and logistics.

ACCESS TO RENTAL FLEET

As a Cross Country Canada mobile warehouse customer, you gain access to our extensive rental fleet, which includes a wide variety of equipment such as light towers, pumps, Morooka carriers, and more. Having this equipment readily available on-site means you can reduce downtime and keep your operations running smoothly.

BOOST JOBSITE EFFICIENCY

Cross Country Canada’s mobile warehousing solutions are designed to increase your jobsite efficiency by eliminating the need for workers to leave the site in search of essential supplies or equipment. With our customized inventory management and on-site resources, you can focus on what matters most—getting the job done efficiently and effectively.

SERVICES

AIR CURTAIN BURNING

Our Air Curtain Burners are a revolution in cost-effective, eco-friendly, and portable wood waste combustion systems. With advanced principles and processes, they define the cutting edge of wood waste elimination technology.

- Maximizes combustion efficiency, producing steam and biogenic CO2 without visible smoke.
- Drastically reduces CO2 emissions and methane release in forestry and agriculture activities.
- Quick and clean ignition process with the optional Clean Burn Ignition System.
- Air curtain activation directs oxygen into the burn chamber, improving combustion efficiency.
- Combustion chamber exceeds 2700°F, accelerating the combustion process.
- Wood waste is the sole needed fuel source, eliminating the need for additional fuels.
- Auger system automatically removes ash, reducing particulate during operation.
- Biomass combustion produces Biochar, a soil enhancer fostering woodland health.
- Extreme reduction in greenhouse gas emissions contributes to a greener environment.
- Air Curtain Burners are a cost-effective and environmentally friendly wood waste combustion system.

FABRICATION

Cross Country Canada offers welding and complete custom metal fabrication from concept and drafting to fabrication and finishing. Our knowledgeable and experienced welders and engineers can build, modify or repair to your specifications.

Whether it's a new build or modifications to an existing structure, our team can provide affordable, versatile and effective fabrication solutions.

CUSTOM BUILDS

Cross Country Canada offers design-build services for the construction of below-the-hook lifting devices, specialized trailers, custom accessories for our rental equipment and both large and small miscellaneous manufacturing projects.

WATER JET CUTTING

Our custom fabrication shop contains high-quality equipment, such as our 5-Axis CNC Water Jet Cutting Table. The tables cutting heads open up 3-dimensional cutting abilities at angles from 0 to 90 degrees. Go beyond cutting bevels on flat stock.

3D SCANNING

Our 3D scanner captures objects up to car-length, boasting an impressive 80 frames per second and a remarkable 0.1 mm accuracy. For your convenience we can travel to your location, streamlining projects for savings in both time and money.

- Welding (Shop/Field)
- Fabrication
- Structural Manufacturing
- Commercial & Industrial Steel Projects
- Equipment Repairs
- Machining
- Water Jet Cutting
- Plasma Cutting
- Weld Inspection
- NDT Certification
- Steel Sales
- Sandblasting & Painting
- 3D Rendering
- Engineering & Design

Our custom fabrication shop is proudly CWB Certified.

CCC TRUCKING

Welcome to CCC Trucking – Your Reliable Partner in Transporting Any Cargo, Anywhere!

At CCC Trucking, we take pride in being your trusted coast-to-coast connection, encompassing even the most challenging territories. With a dedicated team of experts and an expansive fleet, we specialize in delivering seamless transport solutions that cater to your cargo's unique requirements.

DIVERSE TRAILER OPTIONS

At CCC Trucking, we understand that no two cargoes are alike. That's why we offer a versatile range of trailer options designed to cater to the unique demands of various loads. Your cargo's safety and security are our top priorities, and our array of trailer choices ensures the right fit for every transportation need.

IMPRESSIVE FLEET

Our fleet is the backbone of our exceptional transport services, boasting a lineup of top-of-the-line trucks that combine power, reliability, and advanced technology to ensure your cargo's safe and timely journey.

SERVICES

Hotshots
Rush delivery? No problem. Our skilled team and extensive fleet are at your service.

Oversize Transport
Big or bulky, our specialized equipment ensures that your oversized cargo is transported safely and securely.

Cross-Border Solutions
Navigating cross-border regulations is second nature to us. Trust us to move your cargo seamlessly across borders.

Pipe Haul & Stringing
Pipes demand special care, and we're equipped to handle their transportation and stringing with expertise.

Heavy Haul
When your cargo exceeds conventional limits, we ensure a secure and efficient journey, no matter the size, weight, or complexity.

Mob/Demob for Project Management
We understand the complexity of project logistics. That's why we offer full mobilization and demobilization services, making your projects smoother.

**Get 'Er Done.
On Time. Every Time.**

This isn't just a slogan; it's our promise. At CCC Trucking, we live by this motto, ensuring that your cargo is delivered efficiently.
