### DERAIL & RERAILERS

#### 2-WAY RETRACTABLE DERAIL

Derail show slides in and out of the housing through the leverage of a waist-high operating lever.

#### PORTABLE DERAIL W/ SIGN

One direction derailing for use with 4 and 6 axle locomotives and all freight cars.

#### FREIGHT CAR RERAILERS

Straddle type. All wheels are rerailed with one placement. For use with standard size cars.

#### BURLINGTON STYLE RERAILERS

Double-ended rerailers securely lock onto rails, preventing slips or kicks during rerailing.
