

CROSS COUNTRY CANADA SUPPLIES & RENTALS LAVAGRIP TRACTION AID

LAVAGRIP: THE SAFE, SUSTAINABLE SOLUTION FOR WINTER TRACTION

LavaGrip is an innovative traction aid made from natural, eco-friendly black vesicular lava rock. Ideal for use on icy walkways, roads, and driveways, it provides superior grip while being non-toxic and safe for pets, plants, and the environment.

ECO-FRIENDLY COMPOSITION

Made from natural, sustainable volcanic lava rock, LavaGrip provides an environmentally conscious solution for winter traction.

SUPERIOR TRACTION PERFORMANCE

The porous texture of LavaGrip enhances its ability to grip icy surfaces, offering superior traction compared to traditional salt or sand options.

NON-TOXIC TO PETS AND PLANTS

Unlike conventional ice melt products, LavaGrip is safe for pets, plants, and waterways, ensuring no harm to the environment.

SUN-ACTIVATED HEAT ABSORPTION

LavaGrip absorbs heat from the sun, improving its traction performance and helping to prevent the buildup of ice and snow on surfaces.

EFFECTIVE ACROSS ALL TEMPERATURES

LavaGrip performs consistently well in both extremely cold and milder temperatures, making it ideal for all winter conditions.

REUSABLE & COST-EFFECTIVE

LavaGrip is designed for multiple uses, reducing the need for frequent replenishing and minimizing waste.

Choose LavaGrip for a safe, reliable solution that works without harming the environment.
